***Allowable Subject Matter***

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, a voltage converter connected between a first neutral point of said first three-phase coil and a second neutral point of said second three-phase coil for converting an AC voltage generated between said first neutral point and said second neutral point to output an AC voltage having said prescribed frequency.

Claim 8 recites, inter alia, a voltage converter connected between a first neutral point of said first three-phase coil and a second neutral point of said second three-phase coil for converting an AC voltage generated between said first neutral point and said second neutral point to output an AC voltage having said prescribed frequency.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
